Manufacturer's Certification Statement

Ideal Window Mfg, located at 100 West 7th Street, Bayonne, NJ 07002 provides this Manufacturer's Certification Statement so that you, the homeowner, can verify that certain Ideal Window exterior windows and doors are eligible for the energy tax credit eligible for the energy tax credits allowed by Section 25C of the Internal Revenue Code.

The Inflation Reduction Act of 2022 makes notable changes to the prior tax credit benefit which applies to certain exterior windows and doors installed between January 1, 2023, and December 31, 2032.

The tax credit for an individual is 30% of the amount paid or incurred for all Qualified Energy Efficiency Improvements installed during the taxable year, for a maximum credit of \$1200 per year. For exterior windows and skylights, the maximum credit allowed per year is \$600.

To qualify for the tax credit, windows and patio doors must meet the ENERGY STAR® Most Efficient criteria applicable to the installed product's climate zone. Homeowners are advised to consult their tax adviser to confirm eligibility and compliance with tax regulations.

Ideal Window does not provide legal or tax advice and strongly recommends that customers consult with the IRS or their own tax advisors to determine eligibility for any applicable tax credits. Ideal Window assumes no responsibility for validating or obtaining such credits and expressly disclaims any liability for determining whether a specific purchase or application meets the qualification requirements for tax credits.

Refer to:

Thermal performance criteria for Ideal Window ENERGY STAR-labeled products have been independently tested as verified by the National Fenestration Rating Council® (NFRC).

Under the penalties of perjury, I declare that I have examined this certification statement and, to the best of my knowledge and belief, the facts presented are true, correct, and complete.
